EXHIBIT 2

Dear Judge

Hello my name is Sindy Alvarado I am Julio Rosales's wife. I would like to tell you many things about Julio but to be brief, he is a very hard working man, and very responsible at the jobs he held. Most of his jobs have been in produce and as a forklift driver. He is very intelligent and I know that the reason he is incarcerated is due to a mistake he made in a moment of need but we are all human and we make mistakes and like he says I will never make that mistake again because I am having a bad time here because here I don't have a family and I imagine we all need our family by our side and that makes him feel bad, but he recognizes that what he did was wrong and he thinks positively to feel good and knowing that he has to serve time he has positive thoughts to do something like to study and obtain his GED when he is inside. Although personally I miss him as a person and would like him to be outside with me and my children I hope you see and realize that this is the first mistake he has made in his life and that the time he is doing in prison be reduced. I imagine that all human beings make mistakes and have the right to be forgiven and we know that all our mistakes have consequences and the consequence he is paying now is being away from us because I cannot go visit him all the way to Washington because it's far away from Los Angeles California. Something else we know is that he will serve time in prison and I would like to ask you that if he's sent to prison he would be sent close to California so I can visit him at least once a month because I work seven days a week to be able to raise my children and to be able to deposit money so he can call me. I know this is too much to ask but you as a human being you know what it means not to have family near us. I ask you with my heart to give him another second chance.

Sincerely, Sindy Alvarado

I write to you in the most respectful way to let you know that I am Jose Saucedo, Julio Saucedo's uncle.

Since he was a little boy, and I and the entire family are very sad and concerned for my nephew's

situation. We are very surprised he is in this situation because he is very hardworking and honest. He is

very responsible in all his affairs, unfortunately, he let himself be influenced by bad company but at this

time he is very regretful he allowed himself to be lead by his friends.

I beg you Mister Judge to have consideration for him I ask you please that you have consideration for

him when you impose his sentence because we miss him very much and we are worried about his mom

who is not in good health.

Thank you very much.

Sincerely, Jose Saucedo
